

TLILIC0003 - Licence to operate a forklift truck

This training program teaches candidates the skills and knowledge required to safely operate a forklift truck in accordance with legislation.

In this course a forklift truck is defined as a powered industrial truck equipped with lifting media made up of a mast and an elevating load carriage to which is attached a pair of fork arms or other arms that can be raised 900 mm or more above the ground. A forklift truck does not include a pedestrian-operated truck or a pallet truck.

Candidates will learn how to:

- + Identifying and controlling workplace hazards
- + Selecting the appropriate forklift truck according to load and workplace conditions
- + Developing effective communication skills
- + Interpreting signs and labels
- + Ensuring signs are visible and legible
- + Conducting pre-start operational and visibility checks
- + Assessing load weights and compliance with forklift truck data plate specifications
- + Implementing safe forklift operational practices
- + Stabilising materials and avoiding hazards when moving loads
- + Appropriately parking forklift trucks, avoiding hazards and preventing unauthorised access
- + Applying safe forklift truck shut down
- + Conducting routine post-operational forklift truck checks

Candidates are required to successfully complete a theory and practical component to obtain a Statement of Attainment. Participants should have sufficient numeracy and literacy skills to read and comprehend instructions.

Cost: Varies. Please contact us to discuss pricing and potential eligibility for subsidies.
